Alternative: Making Your Own Backing Tracks:

For a 60 second commercial or if the 30-second track isn't working for your needs, we recommend building your own commercial track from the other mp3s supplied on our web site. The **Judy & David's Boom Box Opening Theme** should definitely be used as it is the most recognizable and will have the most chance of grabbing the attention of Judy & David fans. The **Closing Theme** music can be used under dialogue where appropriate as it has no vocals. The **Be Your Friend** clip can be used as a potential alternative song/sound clip. You may also edit the 30-second version and use clips from it.
